

# Installation Guide for AspXFormsGen MVC 3

This guide will show you how to install AspXFormsGen MVC 3. The installation is easy enough that most developers won't need this guide; you simply need to follow all the prompts given by the wizard during the installation. This guide is not specific to any version of this software, therefore you can use this guide for the Professional Plus and Express versions of AspXFormsGen MVC 3

1. You need to unzip the compressed AspXFormsGen MVC 3 file to a folder of your choosing. After unzipping, go to the folder where you unzipped AspXFormsGen MVC 3, then *double-click* the *AspXFormsGenMVC3ProPlusSetup.msi* to start the installation. See Figure 1.

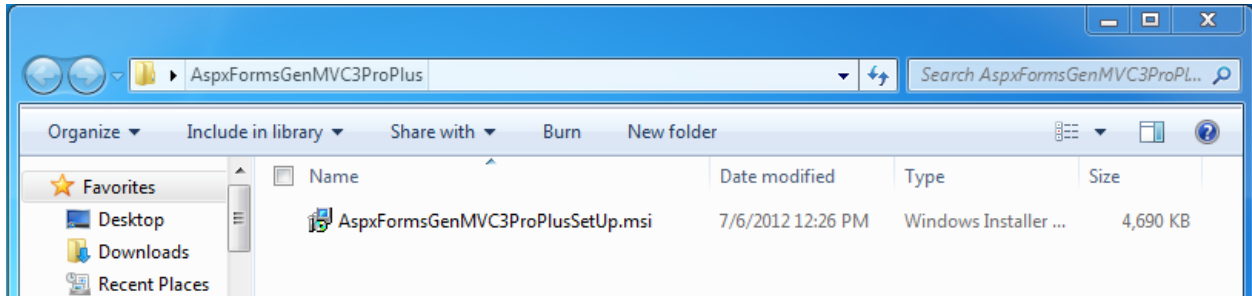

Figure 1 Unzipped Files

2. The welcome screen of the wizard will appear as shown in Figure 2. Click Next.

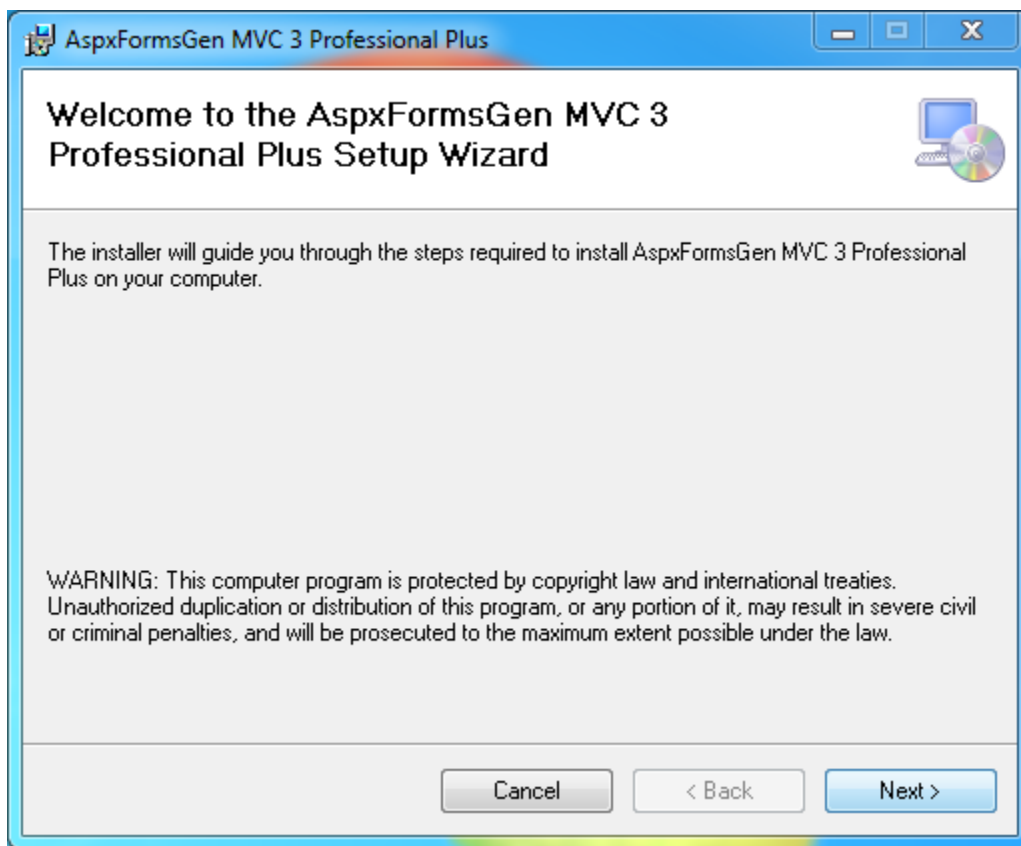

Figure 2 Welcome Installation Screen

3. Click Next in the Select Installation Folder dialog. See Figure 3.

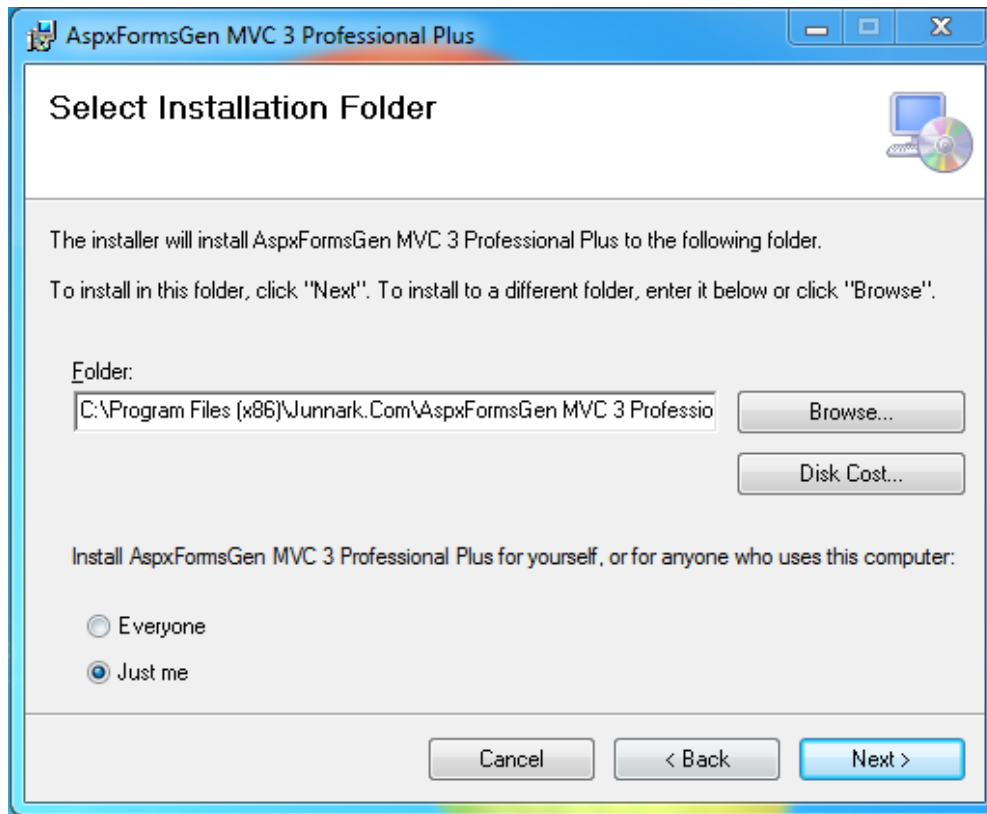

Figure 3 Select Installation Folder

4. Confirm the installation by Clicking Next. See Figure 4.

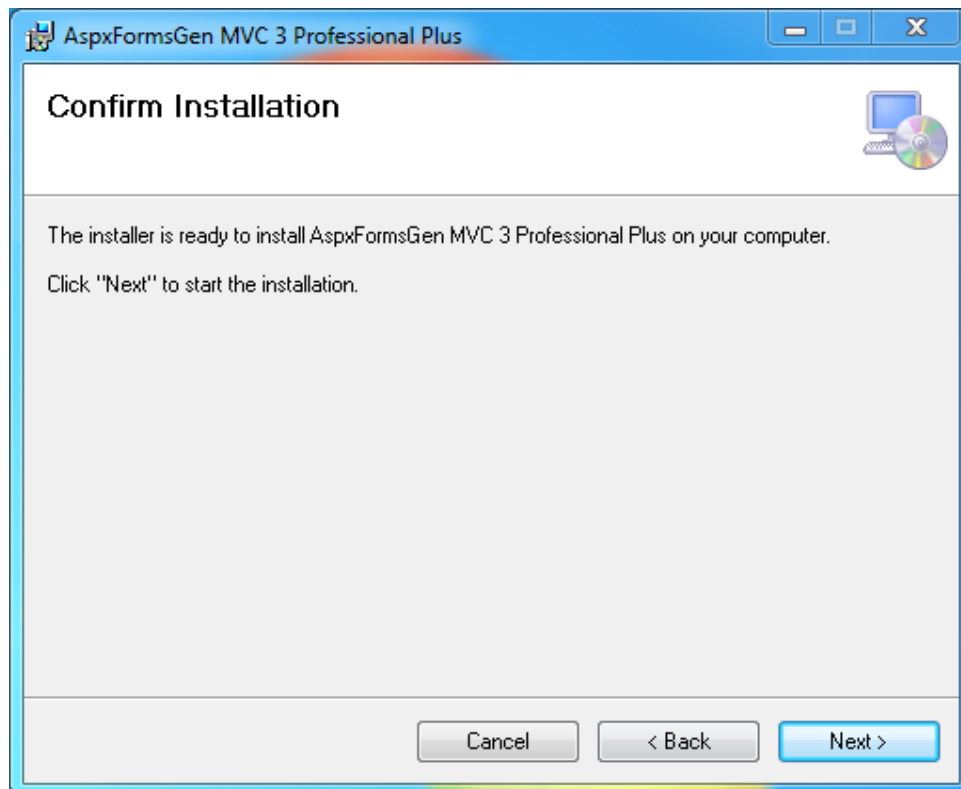

Figure 4 Confirm Installation

- The installation begins, it will show a few screens during the installation. Click **Yes** on the Windows User Account Control pop up. AspFormsGen MVC 3 will quickly install, click Finish in the last screen as shown below.

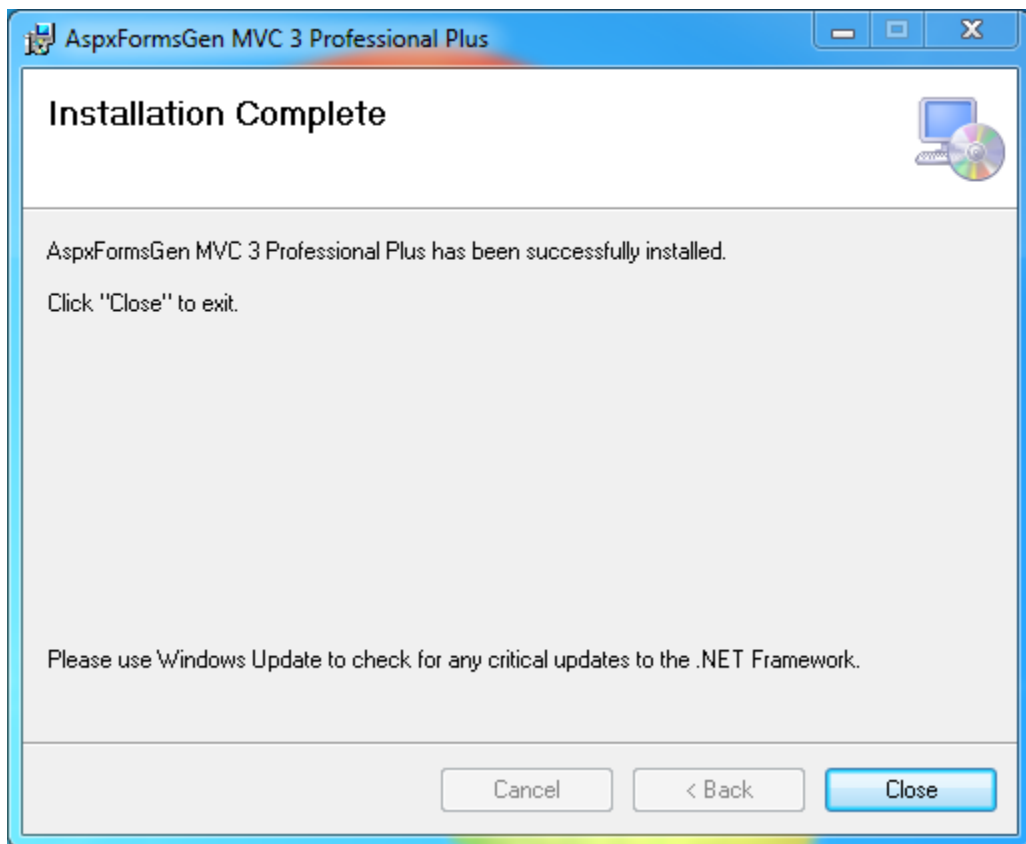

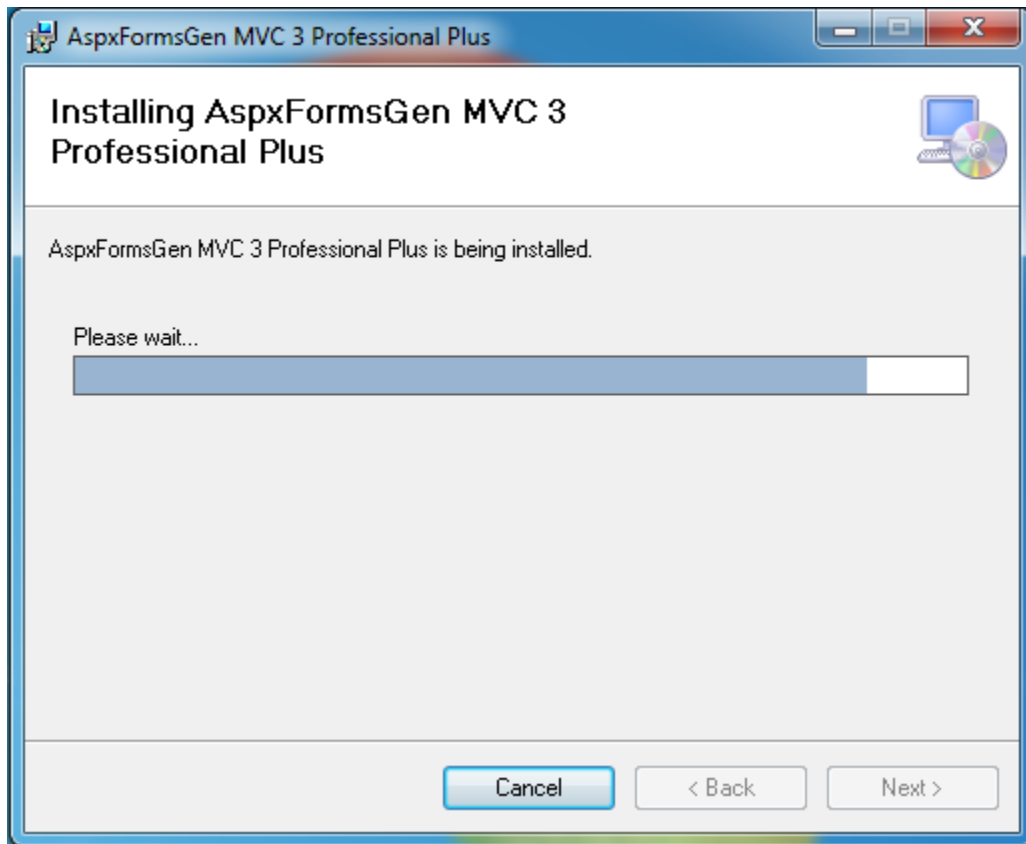

Figure 5 Installation Complete

6. AspFormsGen MVC 3 installed a shortcut in your desktop. You can double-click the shortcut to start using AspFormsGen MVC 3.

End of tutorial.
